## Education

**University of Illinois Urbana-Champaign** Expected May 2028

*B.S. in Computer Science and Music*

**Relevant Coursework**: Data Structures and Algorithms, Computer Systems, Discrete Structures, Software Design Lab
**Awards**: **8x Hackathon Winner** (MHacks 2026, YHack 2026, HackIllinois 2026, HooHacks 2026, SpartaHack 2026)

## Experience

**HackIllinois** Sept. 2026 – Present

*Systems Team Staff* *Champaign, IL*

- Maintaining the **Next.js** site, **React Native** app, and **Express** API serving **1,000+** participants at the Midwest's largest student hackathon

**Major League Hacking** July 2026 – Sept. 2026

*AI Intern* *New York, NY*

- Saved admissions staff **100+** hrs/cycle reviewing **1,000+** applicants for the MLH Fellowship by surfacing 3 checkable commit patterns per applicant repo
- Synced commit signals for all applicants into Salesforce by deploying a **FastAPI** webhook on **Railway**
- Gave **100%** of applicants (up from **47%**) tailored interview questions generated from their own repo code
- Kept **200+** valid applicants in review by triaging unreadable repos into a cause-labeled queue

**Recost** Feb. 2026 – May 2026

*Co-Founder & CTO* *Champaign, IL*

- Tracked real-time per-call cost across **14** API providers and **25** endpoints via **Node.js** and **Python SDKs**
- Forecast API costs at any scale (users × calls/user/day) per endpoint by scaling **7** code-detected call patterns
- Ranked **Top 20** on Product Hunt (**130+** upvotes) with an API-cost SaaS on **Cloudflare Workers + D1**

**Screenz.ai** Feb. 2026 – Apr. 2026

*Full-Stack Engineer Intern* *Miami, FL (Remote)*

- Cut recruiter screening time **∼40%** for **20+** companies with a **Next.js + PostgreSQL** scoring pipeline
- Reduced time-to-hire **6.5x** by shipping AI interviews on **Claude + ElevenLabs** streamed over **WebSockets**

## Projects

**Bastion-Agent** [GitHub] | *Python, SQLite, MCP*

- Compressed Python error traces from **∼8K** to **<600** tokens with an agent-first observability library
- Cut error diagnosis from **minutes** to **one query** with an **MCP** server exposing **10** debug tools to coding agents

**Eco Router** [Devpost] | *Optuna, FastAPI, Rust*

- Won **YHack's Built With Zed track** (**600+** participants) via a **Rust** extension routing to the greenest model
- Cut inference carbon intensity **2.9×** by Optuna-tuning **60+** Qwen runs on NVIDIA DGX Spark
- Extrapolated carbon intensity to **500B**-param models via a scaling-law fit on per-token emissions

## Leadership

**Agentic AI @ UIUC** May 2026 – Present

*Vice President* *Champaign, IL*

- Partnered with **Microsoft**, **SpaceXAI**, **Replit**, and **OpenAI** on AI build nights for **600+** members
- Secured sponsors including **Optiver** and ran AI workshops at other UIUC orgs' hackathons
- Interviewed and staffed student project teams to build features for **VoiceOS**

## Skills

**Programming Languages**: Python, TypeScript, JavaScript, C++, C, Java, Rust, SQL, R, Bash
**Web Technologies & Frameworks**: FastAPI, Node.js, React, Flask, Express, Next.js, Vite, Hono, SQLite, MongoDB
**Development Tools**: Git, AWS, Docker, Kubernetes, Firebase, Cloudflare Workers, Vercel, Railway, PostgreSQL, Neon
**Concepts**: Software Engineering, Frontend, Backend, Full-Stack, LLM Orchestration, Machine Learning
